## How it Works:

When you enroll in Bridgeway's **Homeschool Live** program, you enjoy access to live teachers, peer interaction, and an extra level of accountability and support.

Teachers challenge students to think critically, give their best, share ideas, and engage in online learning with fellow students and instructors.

With Homeschool Live, teachers are responsible for instruction, grading, and feedback and often look for ways to create specialized projects and assessments that will challenge and motivate students. The family will monitor progress at home and contact the teacher when additional support is needed.

Students and parents are also supported by a personal academic advisor who is there to answer questions, connect with teachers as needed, manage permanent

records and transcripts, and provide guidance as students advance from one stage to the next.

With Homeschool Live, students and parents can be confident in a highly interactive educational experience, whether they are involved in Live Online Classes or Self-Paced courses with live teacher feedback and interaction as needed.

Upon course completion, final grades are added to a student's permanent record or transcript, which can be easily accessed in your online portal.

## How Much Time Do We Need to Commit?

- Self-Paced courses begin anytime
